PROFESSIONAL SUMMARY

Detail-oriented Front-end Developer specializing in the JavaScript ecosystem. Focused on building responsive front-end interfaces with React.js and scalable applications. Strong foundation in modern web technologies, database management, and data structures, dedicated to writing clean, optimized code.

TECHNICAL SKILLS

Programming Languages : JavaScript (ES6+), HTML5, CSS3, Python, C

Frontend Frameworks : React.js, Tailwind CSS

Backend & Databases : MongoDB, MySQL

Tools & Version Control : Git, GitHub, VS Code, Postman

WORK EXPERIENCE

Web Developer Intern

ApexPlanet Software Pvt. Ltd. (Virtual) | May 2025 – July 2025

- Designed and deployed responsive, cross-browser compatible web interfaces using HTML5, CSS3, and JavaScript, improving mobile user engagement.

PROJECTS

E-Commerce Web Application (VIBECART) | [Code](#)

- Built a responsive, dynamic frontend using React.js, utilizing functional components and React hooks for clean state management.
- Implemented user-facing features and connected the React frontend to Node.js/Express APIs to handle user requests and product routing.
- Used MongoDB to store product data, ensuring the frontend displays real-time product information.

GitHub Profile Analyzer | [Code](#)

- Developed a responsive web application using modern JavaScript (ES6+) to query the GitHub REST API and fetch live user profiles.
- Created a clean, real-time user interface that updates instantly, ensuring a fast and seamless user experience.
- Connected the frontend to a MySQL database to help save and display the list of recently searched profiles.
